

Brief instructions for starting a Netviewer session

You can establish a secure connection with up to 100 remote computers anywhere in the world in just a few seconds.

You will need the following for a Netviewer session:

- **Netviewer Meet Moderator program**
Download at www.netviewer.com
- **Netviewer Meet Participant program**
Your session partners obtain this free program at www.netviewer.com
- **Internet access** on the Moderator and Participant sides

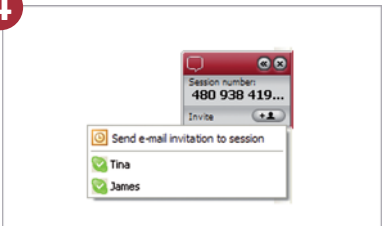

Establishing a Netviewer session:

- 

Start the Moderator program.
- 

In the start dialog, click on **Start session**.
- 

A session number will appear.
- 

Give this session number to the participants, i.e. via e-mail, Skype or telephone.
- 

The participants start the Participant program.
- 

The participants enter the session number and click on **Connect**. The Netviewer session starts.

Upgrade for commercial users starting at **29,90 €**
Available at the Netviewer Shop: shop.netviewer.com
